Partnership Agreement — Los Gardios Group

Los Gardios Partner Agreement — Universal Partnership Agreement for All Disciplines

This agreement ("the Agreement") is made and executed between **Los Gardios LTD**, a company duly registered in Israel (company reg. no. 516819257), operating in the international arena through Los Gardios Enterprise and its group holdings structure, whose registered office is at 15 HaSderah HaMerkazit St., Modi'in, acting through its authorized signatory, Mr. Idan Avitan ("the Organization" or "the Holdings"), and:

Partner's name: _____

Partner's Country: _____

(The Partner's Country stated above determines the Country Annex (Annex C) applicable to this engagement, as detailed in Section 16 below.)

ID card / passport / national registration no.: _____

Global Identity Verification — Separate Secured Document (mandatory): The Partner's signature on this Agreement is conditioned upon the attachment, as a separate encrypted and secured annex file and not as text or images embedded within the body of this Agreement document itself, of a clear and valid photograph or scan of the Partner's valid passport or national ID card ("the Global Identification Document"). The Global Identification Document constitutes a mandatory anchor for fraud prevention and identity verification in the Neuron OS virtual ledger system, and shall be retained by the Organization in a secured, access-restricted system separate from this Agreement document, subject to the data protection laws applicable to the Organization and to the Partner. This requirement shall not derogate from the Partner's other disclosure and identification obligations under this Agreement.

Partner's entity (if any — exempt dealer / licensed dealer / limited company / equivalent foreign entity): _____

Address: _____

Official email for delivery of notices (Section 18(b)): _____

Discipline Group (its full particulars are determined in the Separate Engagement Document, as defined in Section 1(f)):

☐

Commerce

☐

Marketing

☐

Development

☐

Creative-Productions

☐

Other: _____

It is clarified that "advertising" and "sales" are functional sub-specialties operating within the Marketing and Commerce groups, respectively, and do not constitute a separate fifth Discipline Group. A Partner operating in advertising or sales shall mark Marketing or Commerce above, as applicable, with the precise sub-specialty and title recorded in the Separate Engagement Document.

(Each of the Organization and the Partner — a "Party", and together — "the Parties")

Official Legal Document · Confidential

Language of the Agreement and its Binding Version

This Agreement is drawn up in the Hebrew language, and the Hebrew version is the original, binding and controlling version. To the extent a parallel version in the English language has been or shall be produced, that version is intended for convenience only, and in any case of contradiction, inconsistency or difference of interpretation between the versions — the Hebrew version shall prevail for all purposes.

Preamble (Recitals)

Whereas the Organization operates as a global holdings structure comprising two rigidly separated entities: Los Gardios Business School (a closed incubation and training incubator operating under a protected virtual-capital accumulation model) and Los Gardios Enterprise (the operational super-corporation, comprising parallel and equal-standing Discipline Groups: **Commerce, Marketing, Development and Creative-Productions**), which together offer services in the fields of marketing,

design, branding, digital and application development, commerce, e-commerce and additional and future fields;

And whereas the Organization operates in the international arena, including in Israel, in the United States and in additional countries;

And whereas no Discipline Group among Commerce, Marketing, Development or Creative-Productions enjoys structural preference over another in the tier structure, in training or in the Organization's compensation architecture, and this Agreement is drafted so as to apply identically and without discrimination to a Partner of any discipline, existing or future;

And whereas the Partner wishes to join the Organization as a business partner — a partner in the journey and in the profit — and the entire purpose of this partnership is the Partner's participation in the Profits generated from the Organization's brands, its businesses and its engagements with clients, to the extent of the projects actually entrusted to the Partner within the Organization, solely on the basis of the profit-sharing model set out in this Agreement, and expressly not as a shareholder, capital holder or employee;

And whereas notwithstanding the use of the term "Partner" and accompanying terminology throughout this Agreement, the Parties' intention is a relationship of independent economic actors bound by a commercial contract for profit-sharing, and they do not intend to create a legal partnership, joint venture, agency or employer–employee relationship, as detailed in Section 2 below;

And whereas the discipline, title, areas of responsibility and generic categories of the tools and systems in the Partner's use, as well as the Partner's project assignments, tier placement and Layer-1 Execution status in each engagement, are determined solely in the **Separate Engagement Document** — a document external to this Agreement, which is not attached to it and is not signed together with it as a single instrument, but is signed separately by the Partner or Partners involved in each specific internal brand or client engagement at the commencement of work thereon, as defined in Section 1(f) below — without amending or contradicting the discipline-agnostic provisions of this framework Agreement;

And whereas unique adaptations for the Partner's Country are determined solely in **Annex C: Country Annex**, without altering the body of the framework Agreement;

Now therefore it has been agreed, stipulated and declared between the Parties as follows:

1. Definitions and Interpretation

a. **"the Organization" / "the Holdings"** — Los Gardios LTD, a company registered in Israel (company reg. no. 516819257), which is the entity engaging and executing this Agreement,

together with Los Gardios Enterprise and its group holdings structure — including Los Gardios Inc., a separate American entity belonging to the holdings structure only and not the signing party to this Agreement — as well as each of its Discipline Groups, its subsidiaries or its successors.

b. **"the School"** — Los Gardios Business School, a closed incubation and training incubator operating under a protected virtual-capital model, structurally and financially separated from the Organization, without any capital leakage or commingling of assets between the two.

c. **"Discipline Group"** — one of the Organization's parallel and equal-standing Discipline Groups: Commerce, Marketing, Development or Creative-Productions, as well as any additional Discipline Group the Organization may establish in the future. "Advertising" and "sales" are functional sub-specialties operating within the Marketing and Commerce groups, respectively, and do not constitute a separate Discipline Group. The Partner's Discipline Group is determined in the Separate Engagement Document (as defined in Section 1(f)) and does not alter the Partner's rights and obligations under this framework Agreement.

d. **"Partner"** — any individual admitted to participate in the Organization's profit-sharing model under this Agreement, as a business partner — a partner in the journey and in the profit in the projects entrusted to the Partner within the Organization — regardless of Discipline Group, tier or title. The use of the term "Partner" is a business designation only, as construed in Section 2 below, and does not denote a partner in a legal partnership, and does not confer voting rights, shares, capital or any proprietary connection whatsoever in the Organization or in its holdings structure.

e. **"Work Product"** — any product, output or intellectual contribution created, developed, composed, designed, coded, formulated, conceived or otherwise produced in any manner by the Partner in connection with the Organization, the School or any brand, project or engagement with a client, **including but not limited to**: source code and technical products; creative assets (visual, written, audio, video or other); campaigns and marketing and advertising materials; business, commercial or growth strategies; content of any kind; designs, branding and identity systems; business ideas and concepts; client deliverables; internal procedures (SOPs), reports and process documentation; and any other product from any discipline, whether or not it is independently protectable under copyright, patent, trademark or trade-secret law.

f. **"the Separate Engagement Document"** — a separate document, external to this Agreement, which is not attached to it and is not signed together with it as a single instrument and does not constitute an annex to it, and in which the following matters are determined, per-Partner and per-engagement with respect to a specific internal brand, project or external client engagement (hereinafter: a "Specific Engagement"): the Partner's Discipline Group, precise role and title, areas of responsibility; disclosure of the Partner's existing external projects and occupations under Section 3(d); generic categories of tools and systems in the Partner's use and the basis of their

approval, as stated in Section 10(f); the discipline-specific quality metrics applicable to the Partner's role; the name of the brand/project/client of that engagement; the definition of "the Profits" and the method of their calculation for that engagement; the currency of the engagement; the determination of Layer-1 Execution at the commencement of work; the Partner's tier placement; the start date, the commencement date and the expiry of the Incubation Period ("Sandbox"), to the extent applicable; the milestones and deliverables of that engagement; the classification of an idea as Enterprise-Scale or Private-Scale, to the extent relevant; and disclosure of multiple parallel engagements and conflicts of interest under Section 4(g). The Separate Engagement Document is signed independently by the Partner or Partners involved in that Specific Engagement, in any form, format or operational name the Organization customarily uses for that purpose from time to time (for example: a brand document, a client price quotation, a client communication contract, a project assignment form, a Statement of Work or their equivalent), at the commencement of work on that Specific Engagement or shortly before it. This framework Agreement **does not determine** the precise form, structure, template or operational name of the Separate Engagement Document, and does not attach to it any uniform text or template; the role of this framework Agreement is confined to determining the automatic legal consequences arising from the Partner's signature on such a document, or from the actual commencement of the Partner's work on the engagement to which it relates — including, and primarily, under the client-document-signature anchor in Section 5(h1), the "Work = Consent" doctrine in Section 5(f), and the mechanism of absolute internal responsibility toward clients in Section 5(i). The other aspects concerning the Partner (independence representations, insurance, scope of data handling, expense thresholds, cap on simultaneous engagements, conduct toward clients, allocation of tools and equipment, cure period, and address for notices) are regulated as static and uniform defaults in the body of the framework Agreement itself, applying automatically to every Partner without the need for a separate determination in the Separate Engagement Document.

g. **"Annex C — Country Annex"** — the annex signed according to the Partner's Country stated on the opening page, containing the completions required under the laws of the Partner's Country, as detailed in Section 16 and in Annex C below. The Country Annex supplements the framework Agreement and does not alter its body.

h. **"Annex D — Financial Power of Attorney Document"** — the optional annex signed only where the Partner grants a financial power of attorney as stated in Section 6(h), containing the details of the attorney-in-fact, the scope of routing, the expiry conditions and the relevant payment details. Absent such a power of attorney, this annex remains blank and without any force or effect. For the convenience of users, Annex D is positioned in the body of this Agreement adjacent to Section 6(h) from which its content is derived, and not at the end of the document alongside Annex

C (the Country Annex) attached there; its physical location in the Agreement does not derogate from its being an annex for all purposes and does not alter the conditions of its validity.

i. **"Profits"** — the net profit base of each brand, business or client engagement, calculated after deduction of all direct costs and operating expenses, from which the compensation Waterfall in Section 6 is calculated, layer upon layer. The components of "the Profits" of a given engagement (which revenues are included, which expense categories are deducted, and the measurement period) are determined in the Separate Engagement Document of that engagement. In cash projects and client engagements the Waterfall in Section 6(c) is applied to the Profits directly, without a group-split stage; in an internal brand the Profits constitute the Squad brand pool, split first among the Discipline Groups and the corporate roof share under Section 6(c1), and the Waterfall in Section 6(c) operates within the allocated group share only.

j. **"Layer" / "Tier"** — a grade in the tiered profit-sharing Waterfall described in Sections 4 and 6.

k. **"Layer-1 Execution"** — the Hands-On Delivery layer of a particular project, as determined in writing for that project under Section 5, and never as a fixed personal role.

l. **"Neuron OS"** — the Organization's internal and proprietary infrastructure system, virtual ledger and Wallets, used to track profit allocations, Wallet balances and accounting. The mention of Neuron OS is a mention of an internal proprietary system of the Organization itself, and does not constitute the naming of a third-party platform, vendor or technology.

m. **"Confidential Information"** — any information relating to the Organization, the School, their clients, their partners, methodologies, financial models, strategies, the Neuron OS architecture, the training programs or the internal protocols, whether conveyed orally, in writing or observed during the engagement. Including, and without derogating from the generality of the foregoing, any file, template, report, standard operating procedure (SOP) or other internal methodological product of the Organization, in accordance with the sweeping prohibition in Section 9(c1).

n. **"Enterprise-Scale idea"** and **"Private-Scale idea"** — as defined in Section 8 below.

o. **"HQ"** — the central management and executive function of the Organization, operating through the Conglomerate CEO / Holdings or through an officer to whom specific approval authority has been delegated in writing under Section 11(d). Any mention in this Agreement of an approval, discretion or determination of "HQ" means an approval, discretion or determination of the Conglomerate CEO / Holdings, or of an officer to whom authority has been delegated as stated, acting within the bounds of that delegation only.

p. **"Conglomerate CEO / Holdings"** — the supreme executive authority of the Organization: the holder(s) of signature and final decision authority for the Organization, over all entities belonging to its holdings structure, as stated in Section 11(d).

q. Titles of senior officers. "Group CEO", "Group VP", "COO (Chief Operating Officer)", "Country CEO" and "Royal Member" are internal business-marketing labels of the Organization, denoting the affiliation of an independent Partner to a higher profit-sharing layer in the compensation Waterfall in Section 6(c), bearing a broader geographic, domain or organization-wide scope of responsibility. These titles serve for commercial identification, representation and market communication purposes only, and do not confer and do not reflect the status of an officer, employee, subordinate or manager in organizational subordination toward the Conglomerate CEO / Holdings or toward any other party in the Organization; the legal status of every Partner bearing such a title continues to be regulated in full and exclusively under Section 2 (business profit partnership). A Partner bearing such a title belongs to the "Royal Members / Group CEOs / COOs / Country CEOs" layer for the purposes of Sections 4(a)(5) and 6(c)(5) if so designated in the signed Separate Engagement Document. Notwithstanding the foregoing, a Royal Member automatically crowned under Section 7(d) is automatically assigned, upon the fulfilment of the third-generation condition, to the operational grade of Department Head / Division Head — namely, the third layer (Division) in the structure in Section 4(b) — and participates by virtue of this automatic assignment alone in the compensation Waterfall in Section 6(c) at layer (4) only (the Department Head Wallet), and not in the macro layer in Sections 4(a)(5) and 6(c)(5); the additional assignment of that Partner to the macro layer requires a separate designation in the signed Separate Engagement Document as stated in this sub-section above. The updating of the Separate Engagement Document regarding this automatic assignment is declaratory only and is not a condition of the Partner's economic entitlement.

r. **"the Source Protocol"** — the Organization's internal and binding operating and compensation framework, from which the structures reflected in this Agreement are derived (including the tier structure in Section 4 and the Waterfall in Section 6). The Source Protocol is an internal management document; it is not attached to this Agreement and is not incorporated into it by reference, and does not establish for the Partner an independent enforceable right. In the event of a contradiction between the express provisions of this Agreement and the Source Protocol, or of silence in the Agreement — the interpretation rule in sub-section (t) below shall apply and the written provisions of this Agreement shall prevail, subject to the escalation mechanism in Section 17(c).

s. **Platform-agnostic drafting.** This Agreement deliberately refrains from naming any specific software, platform, vendor, advertising network, design tool, artificial intelligence model or technology stack. All references to systems, tools or technologies are generic and adaptive (for example: "advanced artificial intelligence technologies", "machine learning systems", "advanced technological, marketing or creative platforms"), and shall be construed as including any specific

tool in the use of the Organization or the Partner from time to time, as detailed (generically) in the Separate Engagement Document.

t. **Interpretation.** Section headings are for convenience only. In the event of a contradiction between this framework Agreement and a provision in an attached annex (Annex C or Annex D) — the framework Agreement shall prevail; the Country Annex (Annex C) supplements the framework Agreement in the matters delegated to it in Section 16 only and does not amend the body of the Agreement. The Separate Engagement Document, as defined in Section 1(f), is an external document and is not an attached annex to this Agreement at all; it determines facts and details per-engagement only within the legal consequences established in this Agreement, and is not entitled to alter, derogate from or contradict any provision of the provisions of this framework Agreement — and in the event of an apparent contradiction, the framework Agreement shall prevail. The singular includes the plural and vice versa, and the masculine includes the feminine, all according to the context.

2. The Partner's Status — Business Profit Partnership; Absence of Legal Partnership, Voting or Capital

a. **Business profit partnership (B2B) — not employment.** The Partner is a business partner of the Organization — a partner in the journey and in the profit. This partnership is expressed in the Partner's participation in the Profits generated from the projects, brands and client engagements actually entrusted to the Partner within the Organization, in accordance with the scope of the Partner's specific involvement in those specific projects and according to the profit-sharing model in Section 6 — a partnership in the Upside and in the profit, and in the shared organizational journey, and not in capital, corporate governance, general obligations or the Organization's overhead. The Organization does not employ salaried employees under this Agreement: the Partner acts vis-à-vis the Organization as an independent economic-legal actor for all purposes, regardless of Discipline Group. The Organization provides the Partner with the backing, financing, technology and organizational infrastructures supporting its partnership activity, while the Partner conducts itself as a completely independent legal-economic entity. **For the avoidance of doubt and to prevent any misunderstanding: the Partner's status as stated does not confer voting rights, shares, options, equity ownership or any proprietary connection whatsoever in the Organization, in its holdings structure or in its assets, and does not make the Partner a partner in a legal partnership within the meaning of the law.** This clarification is intended to protect both Parties and to prevent any future claim to classify this partnership as an employment relationship, as a binding legal partnership or as equity entitlement, and does not derogate from the true nature of the engagement as a business profit partnership.

b. **Subcontracting.** The Partner may engage subcontractors to actually perform the services, provided that any such subcontractor itself undergoes, before commencing work, the screening and certification process required under Section 3, and itself signs a partnership agreement parallel to this Agreement with the Organization, as an independent business-economic partner in its own right. The full approval mechanism is set out in the Partner Handbook.

c. **Joint responsibility of the Partner's entity.** Where the Partner has stated a partner entity on the opening page, or issues invoices to the Organization through such an entity — the individual Partner and the partner entity are jointly and severally responsible for all of the Partner's personal obligations under this Agreement, including confidentiality (Section 9(a)), non-solicitation (Section 9(b)), non-disclosure of methodology (Section 9(c)), waiver of the moral right (Section 8(j)) and all intellectual property assignment obligations (Section 8), and the use of a partner entity for billing or payment purposes does not limit, split, replace or mask these personal obligations.

d. **Absence of legal partnership, joint venture, agency or employment;** commercial presentation toward third parties. Notwithstanding the use of the terms "Partner", "Partnership Agreement", "business partner" or profit-sharing terminology throughout this Agreement, and without derogating from the true nature of the Agreement as a business profit partnership agreement as described in sub-section (a) above, this Agreement shall not create, and no Party intends to create, a legal partnership, joint venture, agency, fiduciary relationship or employer–employee relationship between the Organization and the Partner under the laws of any country whatsoever. "Partner" serves as a business designation only, describing the Partner's participation in the Organization's profit-sharing model. The presentation of the Partner toward external parties as a "Partner", as holding a senior status or title in the Organization, as a representative on behalf of the Organization, or by any other business title — does not attest to and does not alter the meaning of the term "Partner" and its legal scope as clarified in this Agreement; the use of such titles is intended to simplify the understanding of the business-marketing model only, and shall not create, expand or alter a legal partnership, joint venture, mutual agency, fiduciary relationship, joint and several liability or employer–employee relationship between the Parties. The Partner's authority to actually bind the Organization toward a third party, or to undertake an obligation in its name, is at all times limited solely to the express authorization granted to it in writing under Section 11(d). Each Party is and remains an independent economic actor for all purposes.

3. Onboarding and Training

d. **Disclosure of existing external projects and occupations at onboarding.** Within the framework of onboarding, and prior to the actual commencement of its work on any project or engagement on behalf of the Organization, the Partner shall disclose to the Organization in writing,

within the onboarding documents customary at the Organization, the existence of any project, business idea or venture, external, in which it is already active, or in which it holds a right, interest or involvement, as of the date of onboarding. The purpose of the disclosure is to enable the Organization to examine in advance, prior to the commencement of work, a possible conflict of interest with the Organization's internal projects or its clients. This disclosure supplements, and does not derogate from, the ongoing disclosure obligation applicable to the Partner with respect to parallel engagements during the term of the engagement, as stated in Section 4(g), and is subject to the Organization's approval and review powers under Section 11.

e. **Signature on the Agreement as a precondition.** A Partner shall not commence active work on any project or client engagement of the Organization, and shall not draw against any Neuron OS Wallet, before this framework Agreement has been signed by both Parties and a copy thereof delivered to the Partner. The "Work = Consent" doctrine in Section 5(f) applies solely to incremental project-assignment additions and pricing terms issued under a signed framework Agreement, and never as a substitute for the signature of this framework Agreement itself.

4. Tier Structure and Organizational Hierarchy — Cross-Reference

The Partner's classification into a tier, Discipline Group and organizational status, and the method of calculating its share of the compensation Waterfall under Section 6 below on the basis of that classification, are determined by the tier structure and organizational hierarchy described in full in the Partner Handbook, and do not change as a result of how the Partner is presented to third parties under Section 2(d) above.

5. Project-Based Participation and Layer-1 Execution

f. **The "Work = Consent" doctrine.** Once this framework Agreement has been signed under Section 3(e), the active commencement of the Partner's work on a specific project or client engagement — **whether an internal project or an external client engagement** — constitutes the Partner's binding legal consent to the pricing, risk and other terms of the applicable Separate Engagement Document, and to the full recognition and acceptance of the full scope of the Partner's responsibility and liability exposure under this framework Agreement with respect to that Specific Engagement, in conformity with the terms of any price quotation form or separate engagement document with the client applicable to that Specific Engagement, to the extent one exists — all without the need for a new manual signature of each member of the group on that project. This doctrine applies solely with respect to the incremental Separate Engagement Documents signed under a signed framework Agreement. For the avoidance of doubt, the provisions of this sub-section apply also where the relevant Separate Engagement Document and/or the separate client

conduct agreement, to the extent relevant to that engagement, have not yet actually been signed: the active commencement of the Partner's work on that project or client engagement constitutes full and binding acceptance of its obligations under this Agreement with respect to that engagement, including its obligation under Section 5(i), notwithstanding the non-signature as stated, and this without derogating from the Organization's obligation to have the Partner sign those documents in fact as soon as possible.

Project Timelines and Advance Notice of Delay

The Partner undertakes to document, in writing and in advance, accurate timelines, milestones and delivery dates for every project or engagement in the Partner's charge. Where a delay — anticipated or actual — arises with respect to any date, the Partner shall proactively notify the Organization in writing, as early as reasonably possible under the circumstances, specifying the reason for the delay, so as to allow the Organization to plan accordingly. A delay so reported in advance and in good faith shall not, by itself, be treated as a breach of this Agreement. The full mechanics governing this obligation are set out in the Partner Handbook.

i. **Absolute internal responsibility in conduct toward external clients.** A Partner performing activity toward external clients of the Organization bears, toward the Organization and as an independent and absolute intra-organizational obligation by virtue of this framework Agreement, full responsibility for its professional conduct toward that client: acting professionally, a prohibition on giving any unauthorized undertaking, representation, discount or promise in the name of the Organization beyond its defined authority, insistence on the uniformity of the Organization's messaging and professional standards in communication with that client, and a prohibition on disparaging the Organization, its brands, its partners or its clients. This intra-organizational obligation exists and applies in full in any case, independently, whether or not the separate client conduct agreement has been signed in that case — it is additional to it and is not conditioned on its existence. Concurrently, to the extent the Partner performs activity toward external clients, the Organization's separate client conduct framework also applies to it, signed by every Partner actually participating in a concrete client engagement and regulating the direct obligation toward the client itself — including, where one exists, a client price quotation form applicable to that engagement. The actual commencement of the Partner's work on that engagement, as stated in sub-section (f) above, constitutes full acceptance of the scope of the Partner's responsibility and liability as stated, in full conformity with the terms of the price quotation form or the separate engagement document with the client in that specific case. Role-specific interaction protocols are determined in the Separate Engagement Document.

6. Consideration — Profit-Sharing Only

a. **Profit-sharing only; negation of salary, retainer and capital.** The Partner's sole consideration from the Organization under this Agreement is a percentage of net profits according to the Waterfall in sub-section (c) below. There is not and shall not be under this Agreement any monthly salary, retainer of any kind, fixed wage, income guarantee or salary range on the part of the Organization. All percentages, tiers, waterfalls and Wallets in this Agreement relate solely to Net Profit Distribution from the specific economic activity; under no condition shall this Agreement confer shares (0% equity), equity ownership or a proprietary connection in the assets of the principal holdings company. The provisions of this sub-section apply to the consideration paid to the Partner by the Organization only, and do not apply to the financial power of attorney arrangement in sub-section (h) below, whose subject is the payment of a fixed wage to the Partner by an external party that is not the Organization itself, and which does not constitute a salary, retainer, fixed wage, income guarantee or salary range on the part of the Organization.

b. **Payment against a lawful tax invoice only.** At the end of each calendar month, in accordance with the precise profit rate accrued to the Partner and reflected in its Neuron OS Wallets, a capital transfer order is issued. The Partner shall issue a lawful tax invoice as an independent economic-business partner against the Organization for its share of the Profits, and the profit-sharing shall be effected solely against a lawful and valid invoice or receipt in accordance with the applicable law. The effecting of payments under this Agreement is subject to the laws of the State of Israel, and also — separately and cumulatively, as an independent compliance obligation of the Partner, and without altering the substantive law applicable to the Agreement, its interpretation and the proceedings under Section 15(d) — to the tax, reporting and banking laws of the Partner's Country, as detailed in Section 14 and in Annex C.

c. **The compensation Waterfall.** The Profits (as defined in Section 1(i), and as detailed per-engagement under Section 4(e)) generated from each brand, business or client engagement are distributed among the following five (5) layers, in this order only, identically across all Discipline Groups, by the method of deriving a fixed percentage from the balance remaining from the previous stage. The order of the layers, their names, their number (five (5) layers, layers (1) to (5) below) and the detailed mathematics below are the exhaustive and binding order, names, number and calculation of the compensation Waterfall under this Agreement, prevailing over and controlling with respect to any other formulation, numbering, designation or calculation appearing in any internal management document of the Organization, including the Source Protocol as defined in Section 1(r), in accordance with the primacy rule established in that section:

(1) **Execution Layer:** twenty percent (20%) of the Profits of that engagement, distributed among the Partners defined as Layer-1 Execution in that engagement.

(2) **Project Manager Wallet:** twenty percent (20%) of the balance after (1).

(3) **Team Manager Wallet:** twenty percent (20%) of the balance after (2).

(4) **Department Head / HOD Wallet:** twenty percent (20%) of the balance after (3).

(5) **Royal Members / Group CEOs / COOs / Country CEOs:** the balance after (4) (approximately forty-one percent (approx. 41%) of the Profits of that engagement), distributed as follows: each senior macro grade active in the chain above that engagement — in accordance with the level of funnel deployment in that region or country, and as designated in the relevant Separate Engagement Document — derives twenty percent (20%) of the balance that reached it, layer after layer, and the final residual after deriving all macro grades is locked in the Holdings Treasury as the final Retention reserve of the Holdings.

Where in a given engagement no Partner has been designated to a particular layer, the share of that layer remains in the Holdings Treasury for that engagement and is not reallocated to another layer or to Partners in other layers, unless the Separate Engagement Document of that engagement expressly provides otherwise. The Waterfall continues through additional layers as required by the organizational structure, in accordance with the **inter-entity residual ascent mechanism**: where the engagement is conducted within a subsidiary entity, group or branch, the residual ascends up the entity structure, with the managing grade of each entity along the way (including the CEO of the subsidiary group) deriving twenty percent (20%) of the residual that reached it before it continues up the structure, until the final residual is locked in the Holdings Treasury as stated.

h. **Financial Power of Attorney — Cross-Reference.** The Partner may route part of the balance of its own Wallet, in a proportion not exceeding twenty percent (20%) of that Wallet's balance, to an attorney-in-fact who is another active Partner in the Organization, subject to the terms and procedure set out in Annex D attached to this Agreement. Nothing in this sub-section creates an additional payment mechanism on the part of the Organization itself, as stated in sub-section (a) above.

k. **Setoff and Recoupment.** Where the Partner owes the Organization a finally determined amount — including liquidated damages under Section 9(d), an expense overrun or an unauthorized engagement under sub-section (i), or any other amount determined in a final and binding arbitral award or in a decision of a competent tribunal under Section 15, or by the Partner's written agreement — the Organization is entitled to set off and recoup this amount from any profit-sharing accrued and not yet paid to the Partner under this Agreement, including amounts as stated in Sections 12(e)–(f) and 13(b), provided that the Organization has given the Partner prior written notice of the setoff and of the supporting calculation. This sub-section qualifies, and is expressly incorporated into, the description of the Partner's entitlement upon departure in Section 12(e).

7. Performance Standards

e. **Quality standards and a static cure period.** The Partner shall perform the services at a professional level suitable to the Discipline Group and to its role, and shall persist in currency and relevance in its field. Where the Organization identifies a material quality or performance deficiency, distinct from a breach of a time-box under Section 12(h), the Organization shall give the Partner written notice describing the deficiency, and the Partner shall have a uniform cure period of fourteen (14) business days from the day of delivery of the notice to correct the deficiency, before pursuing remedies under this Agreement — except for breaches of confidentiality, non-solicitation or non-disclosure of methodology, which are regulated exclusively in Section 9, and except for a breach of intellectual property obligations, which is regulated exclusively in Section 8. HQ is entitled, at its sole discretion and upon prior written notice, to determine a longer cure period for a specific role or deficiency; shortening the uniform cure period requires the Partner's written agreement.

8. Intellectual Property — Ownership and Assignment

a. **The default: the Organization's ownership of all Work Product.** As a general default, all Work Product, business idea or intellectual property conceived, created, developed or composed by the Partner in connection with its activity in the Organization, its brands, its projects, its systems or its clients — **including, but not limited to, code, creative assets, graphics, designs, campaigns, strategies, content, documents and business ideas, of every kind** — belongs in full and exclusively to the Organization from the moment of its creation, as a "Work Made For Hire", and the Partner has no right, ownership or proprietary connection in it, except only to the extent the exception mechanism in sub-section (b) below has been fulfilled. This default applies to all Work Product created in connection with the Partner's activity in the Organization, including Work Product produced within an assignment to a project, brand or client under the signed Separate Engagement Document, ownership of which passes to the Organization automatically and immediately upon the actual commencement of work thereon as stated in Section 5(f) ("Work = Consent"), and according to the assignment, Work Made For Hire and moral-right waiver mechanisms in sub-sections (i)–(j) below.

b. **The Partner's commitment.** By signing this Agreement, the Partner undertakes to act in full accordance with the Organization's intellectual property rules — including the Private-Scale approval mechanism, the hermetic blocking rule applicable to the Organization's clients and network, and the assignment and moral-rights-waiver mechanism — all as detailed in the Partner Handbook.

9. Confidentiality, Non-Solicitation and Non-Disclosure of Methodology

a. **The Partner's commitment.** By signing this Agreement, the Partner undertakes to keep all of the Organization's confidential information in absolute confidence; not to solicit, approach, or use the Organization's clients, partners, or suppliers for any outside venture; not to disclose the Organization's methodology, work procedures, or technical architecture to any external party; and to take reasonable preventive measures to protect confidential information, client data, and access credentials entrusted to it. The full rules — including the 60-second automatic lockout mechanism and the scope of obligations surviving departure — are set out in the Partner Handbook.

B. The Organization invests substantial resources, time and capital, on an ongoing and continuous basis, in every aspect that enables the Partner to operate and succeed within it — including: the technological infrastructure and internal ledger (Neuron OS) that manage profit allocations and every partner's data; the proprietary work templates, standard operating procedures (SOPs), file libraries and methodology that the Partner is trained and authorized to use; the onboarding and training of the Partner personally, and of every additional partner the Partner brings in, through the Business School's training tracks; the development of the brands, goodwill and client relationships from which the Partner's profit opportunities are derived; and the data-security, insurance and data-protection mechanisms required of every partner under Section 10. A full, detailed description of the scope of this investment appears in the Partner Handbook.

C. This investment is a shared asset of the Organization and of the partner community as a whole, and the success of the engagement between the parties depends on its protection. The Partner undertakes not to harm it, and acknowledges that maliciously harming any of the Organization's resources — including poaching clients, suppliers or partners in violation of Section 9(b); exposing, leaking or exporting confidential information or proprietary methodology in violation of Sections 9(a) and (c); breaching the intellectual-property obligations of Section 8; or maliciously damaging the Organization's data or systems — harms not only the Organization but the entire partner community that relies on that same shared investment.

D. **Compensation for such harm.** If the Partner breaches any obligation under Section 8 (Intellectual Property), Section 9(a)-(c) (Confidentiality, Non-Solicitation and Non-Disclosure of Methodology), or Section 10 (Data Protection and Security) of this Agreement, the Partner shall pay the Organization liquidated damages — constituting an early, genuine, good-faith estimate of the minimum harm such a breach causes — of not less than NIS 100,000 per breach (or its equivalent in the Partner's country currency, at the Bank of Israel's representative rate on the date of breach), without any need to prove the actual amount of harm, and as a floor only: to the extent the Organization's actual damages exceed this amount, the Organization may claim its full actual

damages. Amounts owed to the Organization under this section may be set off against any amount not yet paid to the Partner, as provided in Section 6(k) below.

E. **Minimal reformation.** If a competent court or arbitrator determines that the amount fixed in subsection C is not fully enforceable in particular circumstances, it shall be reduced only to the minimal extent necessary to render it enforceable, and shall not be voided entirely.

f. **Resolution of confidentiality disputes.** Disputes under this Section 9 are subject to the dispute-resolution mechanism in Section 15.

10. Data Protection and Security Obligations

a. **The Partner's commitment.** By signing this Agreement, the Partner undertakes to implement reasonable administrative, technical, and organizational security measures to protect confidential information and client data; to notify the Organization in writing within forty-eight (48) hours of becoming aware of any security incident or suspected incident; and to maintain professional-liability and/or cyber liability insurance of not less than US $150,000 per incident where it actually accesses client or company data. The full rules are set out in the Partner Handbook.

b. **Use of unapproved tools and platforms.** Use of a tool, platform, software or technology not approved as set out in the Partner Handbook, including use of the Partner's personal account, through which confidential information, client data or Organization work product is actually entered, stored, processed or exposed — constitutes a material breach of this Agreement and a serious security breach, equivalent to a breach of Section 9(a) for all purposes, including for the purposes of Section 9(d). The full approval rules for use of such tools are set out in the Partner Handbook.

11. Authorities, Voice and Decision-Making

a. **Voice and Authority.** Every partner's opinion and voice carry real weight in departmental and team discussions, but profit percentage and tier status do not create legally binding voting rights over the Organization's governance. Final authority to contractually bind the Organization rests solely with the Conglomerate CEO, who may delegate specific powers in writing to named officers; no partner may rely on any officer's apparent authority beyond what is actually approved in writing in the delegation register. Full detail is set out in the Partner Handbook.

e. **Mutual indemnification.**Clarification in plain words: this provision means that each Party protects the other Party from monetary damage caused to it as a result of a third-party claim, to the extent that damage was caused by the fault of the first Party itself — that is, if the negligent, breaching or harmful conduct of one Party gives rise to an external claim against the other Party, the Party that caused the damage is the one that shall bear the cost of defending against it and its

consequences. Accordingly, and in a legally binding manner: each Party shall indemnify and defend the other Party against third-party claims, losses and reasonable expenses arising from (1) negligence or willful misconduct of the indemnifying Party, (2) the Partner's use of unauthorized, infringing or unlicensed third-party materials in its Work Product, or (3) a material breach of this Agreement by a Party, all to the extent the claim, loss or expense was caused by the acts or omissions of the indemnifying Party. This obligation applies uniformly to all Discipline Groups.

f. **Limitation of liability.** Each Party shall be liable to the other for damages caused to it as a result of a breach of this Agreement or in connection with it, subject to the limitations established in this sub-section. The aggregate liability of each Party to the other as stated shall not exceed the total profit-sharing paid or payable to the Partner under all its Separate Engagement Documents that were in force in the twelve (12) months preceding the claim, including, where the Partner manages several engagements simultaneously, the aggregate sum across all of them; a claim not attributed to a specific Separate Engagement Document shall be calculated according to the aforesaid aggregate sum in that period. This cap operates reciprocally for the benefit of both Parties.

This cap does not apply to the following categories, which remain under full and uncapped liability:

(1) breaches of confidentiality, non-solicitation, non-disclosure of methodology or intellectual property assignment obligations (under Section 9(d)), including the consequences of security negligence as described in the Partner Handbook that constitute a breach of Section 9 as stated there;

(2) claims of fraud or willful misconduct;

(3) the Organization's claims for the abandonment of obligations without proper handover under Section 12(c) or for a breach of a time-box under Section 12(h);

(4) material damage caused as a result of negligence, misconduct or improper conduct of the Partner — whether in an engagement with an external client (including a breach of the professional-conduct obligations in Section 5(i)), whether in an internal brand or project of the Organization, or in any other operational or organizational context (hereinafter: "material damage from negligence").

The material-damage-from-negligence exception in paragraph (4) is intended to reflect the fact that the scope of the potential harm to the Organization — whether toward a valuable and ongoing client or within an internal brand or project — is not necessarily derived from, and in any event is not limited by, the scope of the Profits generated by that specific Partner up to that date (such as a relatively new Partner with low or nil accrued profits, and particularly during the Incubation Period in Section 6(d1)). The exceptions in paragraphs (1)–(4) are limited to the categories enumerated above only, and do not constitute a sweeping cancellation of the cap for any other claim.

g. **Force majeure.** No Party shall bear liability for delay or non-performance arising from circumstances beyond its reasonable control, including natural disaster, war, epidemic, governmental action, regulatory shutdown or broad infrastructure failure not arising from that Party's negligence, provided that the affected Party has given immediate written notice and has resumed performing its obligations as soon as possible. Force majeure does not exempt from the Partner's confidentiality, non-solicitation or intellectual property obligations, which survive in any case. A delay or unavailability justified under this sub-section does not constitute a breach of a time-box under Section 12(h).

12. Termination of the Engagement — Dissolution of a Partnership Engagement

a. **Nature of the termination.** The termination of the engagement under this Agreement is a dissolution of or exit from a partnership-commercial engagement between independent economic actors, and is expressly not a dismissal, resignation or termination of an employer–employee relationship, which do not exist between the Parties as stated in Section 2.

b. **Termination without cause — tiered prior-notice model.** Each Party is entitled to terminate this Agreement without cause upon prior written notice, the count of which is determined according to the Partner's highest tier across all its active Separate Engagement Documents at the date of the notice:

(1) **Execution Partner** — thirty (30) days;

(2) **Team Manager** — sixty (60) days;

(3) **Department Head / HOD and above — including Royal Members, Group CEOs, COOs and Country CEOs** — ninety (90) days.

For any intermediate tier not expressly stated above, the notice period of the nearest stated tier **below it in the tier structure in Section 4(a)** shall apply — that is, the nearest stated tier of lower compensation and seniority in that structure, and not according to the order of their appearance in the text of this sub-section. Thus, for example, a Project Manager — layer (2) in the structure in Section 4(a), positioned between the Execution Layer and the Team Manager Wallet — is subject to the notice period of the Execution Layer, namely thirty (30) days, unless a different notice period has been expressly determined for it in the signed Separate Engagement Document. The notice shall be given in writing under Section 18(b), and it shall not derogate from the surviving obligations in Section 13.

c. **Handover and knowledge-transfer obligation.** During the prior-notice period the Partner is under a binding obligation to carry out an orderly handover and full knowledge transfer in all active

projects under its care — including the transfer of files, data, statuses, permissions and process documentation — to the party the Organization directs, and to complete in good faith its written pending obligations. **Abandonment of obligations without proper handover constitutes a material breach** of this Agreement, with its consequences: economic sanctions in accordance with the setoff and recoupment right established in Section 6(k) only (and not as an immediate and unilateral measure preceding a determination as stated there), exposure to full tort liability for the loss of clients or harm to the Organization's assets, and a cause to activate the material-breach consequences established in Section 12(g)(1)(c) below, including the immediate termination of the Agreement subject to the cure period stated there.

d. **Payment dates during the notice period and thereafter.** Ongoing profit-sharing accrued and not yet paid continues to be settled automatically in the regular monthly cycle in Section 6(g), including during the notice period and after the termination with respect to amounts accrued prior to the termination, subject to the accrual mechanics in Section 13(b).

e. **Absence of entitlement beyond accrued profits.** Since the Partner does not inject into the Organization capital, principal or investment as a condition of entry, and does not hold an equity connection under this Agreement — the Partner has no claim to a "return of principal" or a similar concept upon departure: there is no invested capital to return. The Partner's sole entitlement under this Agreement upon departure is to profit-sharing lawfully accrued under Section 6 up to the actual date of termination, calculated under Section 13(b) and settled under Sections 6(g) and 12(d), subject to the Organization's setoff and recoupment rights under Section 6(k). The Partner does not bear a personal financial loss beyond the opportunity cost of profits not yet accrued, and is never personally liable to the Organization for negative performance, lack of profitability or the loss of a project or brand.

f. **Discretionary gesture after departure.** If at the date of termination of the Partner's assignment to a specific project or brand no distributable profit has yet been generated in that project under the applicable Separate Engagement Document, the Partner has no accrued profit-sharing for that project at the date of departure. The Organization is entitled, at its sole discretion and without any obligation, to recognize and pay a departing Partner part of a profit generated thereafter from that project, attributed to its contribution prior to its departure, as if it had remained assigned during the relevant measurement period. This is a good-will gesture only, which does not establish a binding entitlement, does not confer capital, ownership or a proprietary connection of any kind, and does not establish for the Partner a claim or right to compensation if the Organization refrains from it.

g. **Termination for cause.**

(1) Notwithstanding sub-section (b) above, the Organization is entitled to terminate this Agreement immediately, upon written notice to the Partner and without the tiered notice period,

where the Partner: (a) breached Section 9 (confidentiality, non-solicitation or non-disclosure of methodology) or the intellectual property assignment obligations in Section 8; (b) committed sabotage, data forgery, fraud or a leak of the kind that activates the access lockout under Section 9(d); or (c) did not cure a material breach of this Agreement (including a material quality or performance deficiency under Section 7(e), or abandonment without handover under sub-section (c) above) within the cure period determined under Section 7(e), or, absent a stated period, within a reasonable cure period specified in the Organization's notice.

(2) The immediate access lockout under Section 9(d) is a security response distinct from the termination of the Agreement and does not terminate it in and of itself; where the conduct that led to the lockout also constitutes a cause under this sub-section, the Organization is entitled, additionally and separately, to terminate the Agreement immediately. Termination for cause does not exempt the Organization from paying profit-sharing lawfully accrued up to the date of termination, calculated under Section 13(b) and subject to setoff under Section 6(k), and does not derogate from the Organization's right to liquidated or actual damages under Section 9(d) for the breach underlying the termination.

h. **Breach of a time-box.** A delay not made known in advance, unavailability or non-performance of a written and time-bounded obligation under Section 5(g), constitutes a contractual breach, from any Discipline Group, and they may give rise to economic sanctions in accordance with the setoff and recoupment right established in Section 6(k) and exposure to tort liability, separately from and in addition to any consequence under sub-sections (b) or (g) above.

i. **Death or incapacity of a sole individual Partner.** Where the Partner is an individual who has died, or whom a licensed physician has determined to be suffering from a permanent incapacity depriving it of the ability to perform services under this Agreement — this Agreement and all active Separate Engagement Documents terminate automatically, effective from the date of death or determination, without the tiered notice period in sub-section (b). Profit-sharing lawfully accrued up to that date, calculated under Section 13(b), shall be paid to the Partner's estate, its legal representative or those lawfully entitled under the applicable inheritance laws, against the presentation of supporting documents to the Organization's satisfaction (a probate order, an inheritance order or an equivalent local document), and subject to the setoff rights under Section 6(k). The obligations of confidentiality (Section 9(a)), non-disclosure of methodology (Section 9(c)) and intellectual property assignment (Section 8) survive and continue to bind the Partner's estate or its representative with respect to Confidential Information or Work Product in their possession or control, to the same extent they would survive a voluntary termination. Nothing in this Agreement shall confer on an heir, estate or representative a right to continue performing services, to inherit the Partner's role or to be accepted as a substitute Partner; such continuation requires a new agreement to be signed separately with the Organization.

13. Post-Termination Obligations

a. **Surviving provisions.** The following obligations survive the termination or expiry of this Agreement without a time limit, or for the periods stated in them: confidentiality (Section 9(a)); non-solicitation (Section 9(b)); non-disclosure of methodology, including the absolute export prohibition (Sections 9(c)–(c1)); the rule distinguishing between the permitted and the prohibited after departure (Section 9(c2)); the liquidated damages and severance provisions (Sections 9(f)–(g)); all intellectual property assignment obligations, including the hermetic rule regarding clients and the Organization's network (Section 8); the dispute-resolution and applicable-law provisions (Section 15); the setoff and recoupment right (Section 6(k)); and any accrued and unpaid consideration debt under Section 6.

b. **Final deliverables only; accrual upon mid-project termination.** In accordance with Section 8(l), upon termination the Partner is entitled solely to consideration already accrued and payable under this Agreement and the signed Separate Engagement Documents; the Partner has no continued access right to the models, strategy documents, the Neuron OS architecture or the methodology. With respect to a Partner whose engagement terminated while it was assigned to an active engagement not yet delivered, "accrued profits" for the purposes of this sub-section means:

(1) with respect to a milestone, deliverable or billing period completed and billed to the client (or, in an internal brand, recognized as revenue) before the date of termination — the full tier share of the Partner in the Profits attributed to that completed and billed/recognized portion, calculated under Section 6(c) and settled in the regular monthly accounting cycle;

(2) with respect to work performed but not yet billed or recognized as revenue at the date of termination — a proportionate part of the Profits reasonably attributed to the proportion of the agreed scope of work that the Partner actually completed up to that date, as HQ shall reasonably and in good faith determine on the basis of the milestones, deliverables or scope described in the applicable Separate Engagement Document, and it shall be paid after that portion is actually billed to the client (or recognized as revenue), in the monthly accounting cycle following the billing or recognition; and

(3) no profit-sharing accrues or is due for any part of the scope of the engagement not yet performed by the Partner at the date of termination, whether or not it was subsequently completed by another Partner or by the Organization directly.

c. **Return of materials and access.** Upon termination, the Partner shall immediately return or destroy all Confidential Information and Organization materials in its possession, and its access permissions to the Neuron OS systems shall be revoked — without derogating from the access-lockout mechanism under Section 9(d) where it was activated previously.

14. Regulatory and Tax Responsibility of the Partner

a. **Exclusive responsibility of the Partner.** The Partner is exclusively and fully responsible for: (1) its taxation in its country, including registration, reporting and payment in any country in which it is a tax resident or liable to tax; (2) compliance with the local regulation applicable to it; (3) compliance with the local labor and contractor-engagement laws applicable to it; and (4) issuing lawful invoices under its local law. **The Organization bears no legal responsibility for the Partner's local compliance.** The Partner shall furnish, upon demand, any tax-residence certificate, treaty-exemption form or equivalent documentation required by the Organization for the purpose of complying with withholding-at-source obligations; absent valid documentation, the Organization is entitled to withhold at source at the applicable statutory rates.

b. **Local advice — a right, not a condition.** The Partner is entitled, at its sole discretion, to obtain local professional advice (legal, tax and accounting) before the engagement and during it; obtaining such advice is not a condition of entry into this Agreement and is not a condition of its continued validity.

c. **Organization window.** The Partner is granted an organization window of up to thirty (30) days from the date of the actual commencement of its work to complete its local registrations and compliance arrangements (including the establishment of a binding entity for the purpose of issuing invoices). This window shall not defer or derogate from the Partner's confidentiality, intellectual property and security obligations, which apply from the first day.

15. Dispute Resolution, Applicable Law and Jurisdiction

a. **Preliminary internal-resolution stage (optional, by agreement only).** Before turning to the external professional arbitration in sub-section (b) below, the Parties are entitled — by mutual written agreement only — to bring a dispute, controversy or claim arising from this Agreement, its breach, its termination or its validity, first to an internal-confidential resolution before an agreed senior Partner from within the Organization, by way of non-binding mediation or conciliation. This stage is entirely voluntary: no Party is obligated to agree to it, each Party is entitled to withdraw from it at any time, and it shall not delay, condition or derogate from the right of each Party to turn directly to the external professional arbitration as stated. If a written and signed settlement agreement is reached at this stage — it shall bind the Parties like any contract; if no agreement is reached, or a Party has chosen not to turn to this stage or to withdraw from it — the dispute shall be brought to the external professional arbitration in sub-section (b).

b. **Confidential external professional arbitration — the binding forum; identity of the arbitrator.** Any dispute, controversy or claim as stated that is not resolved by agreement shall be

finally and bindingly determined in a single external professional arbitration, conducted behind closed doors and in full confidentiality. This mechanism is intended, among other things, to protect the Organization's trade secrets, financial models, Neuron OS strategies and campaign data from public exposure, and it applies identically to all Discipline Groups. The arbitrator shall be an external, neutral and independent professional, who has no connection, conflict of interest or economic dependence with any of the Parties, and who does not belong to the Organization or to its holdings structure, agreed upon by both Parties. If the Parties have not agreed on the identity of the arbitrator within thirty (30) days from the delivery of the written arbitration demand, the arbitrator shall be appointed, at the request of any Party, by the Israeli Institute of Commercial Arbitration (or another recognized institutional arbitration body operating in Israel, to the extent the said Institute ceases to operate), from among its list of professional arbitrators, in accordance with its rules. The arbitrator's decision is final and binding on the Parties for all purposes, and they hereby undertake to comply with it voluntarily, in full and without delay, without being required to resort to a further enforcement proceeding. The entire arbitration proceeding, including its very existence, is confidential.

b1. **Maximizing confidentiality to the extent permitted by law.** Without derogating from sub-section (c), in a case where a turn to a court is required solely for the purpose of enforcing an arbitral award, obtaining interim or urgent relief, or limited judicial review of the propriety of the arbitration proceeding — to the extent the local procedural law permits this — the Parties shall act jointly to file the proceeding under confidentiality, behind closed doors or with the omission of confidential and proprietary details of the Organization, to the maximum extent possible in the circumstances.

c. **Exclusive jurisdiction — the courts in Tel Aviv-Yafo only.** Any legal proceeding not subject to the arbitration in sub-sections (a)–(b) above, or required in connection with it — including an action to enforce or set aside an arbitral award, an application for interim or urgent relief, and any other legal proceeding in connection with this Agreement — shall be subject to the exclusive and sole jurisdiction of the competent courts in Tel Aviv-Yafo, Israel, only. The jurisdiction of any foreign court is hereby expressly negated, and the Parties waive any claim of forum non conveniens with respect to the courts in Tel Aviv-Yafo.

d. **Applicable law.** This Agreement, its interpretation, its validity and any dispute in connection with it — including the substantive law to be applied in the arbitration — shall be governed by the law of the State of Israel only, without its conflict-of-laws rules. The provisions of this sub-section do not derogate from the cumulative and separate application of the tax, reporting and banking laws of the Partner's Country to the Partner's compliance with its own obligations under Section 6(b), Section 14 and Annex C; these laws apply as independent compliance obligations of the Partner in parallel with the Israeli law applicable to the Agreement, its interpretation and the proceedings under it, and

do not alter the substantive law applicable to the Agreement itself under this sub-section and do not derogate from the exclusive jurisdiction in sub-section (c) above.

e. **Survival where mandatory local law determines a different forum.** To the extent mandatory law applicable to the Partner determines, in a non-derogable manner, that a particular type of claim shall be heard in a different forum — that specific claim only shall be heard in the forum mandated by that law, while applying the substantive law in sub-section (d) to the maximum extent that forum permits, and without this prejudicing the validity of sub-sections (a)–(d) with respect to any other claim, dispute or Party, which shall continue to apply in full.

16. International Applicability and Country Annex

a. **The Country Annex mechanism.** Unique adaptations for the Partner's Country are made **solely** by means of a Country Annex (Annex C) signed per-Partner in accordance with the "Partner's Country" stated on the opening page. The body of the framework Agreement is uniform and global and never varies per-Partner; the Country Annex supplements it in the matters enumerated in sub-section (b) only, and is not entitled to amend, derogate from or contradict the provisions of the framework Agreement.

b. **Content of the Country Annex.** The Annex C signed for each Partner deals **solely** with the Partner's Country and with the banking and payment mechanics required to effect the actual payment to the Partner, including the bank account details, SWIFT/IBAN and intermediary bank, to the extent relevant to a cross-border transfer. The Organization and the Partner are two separate legal-economic actors, and the payment to the Partner is effected against an invoice from any country whatsoever; Annex C does not deal with the Partner's tax residence, local mandatory protections, local data protection requirements or the treatment of indirect tax (VAT, reverse charge or their equivalents) — all of which are subject to the exclusive and full responsibility of the Partner by virtue of Section 14, and their absence from Annex C shall not derogate from this responsibility.

c. **Default.** So long as Annex C has not been signed for the Partner, the default basis of this Agreement assumes an independent Partner based in Israel, and the non-signature of the Annex shall not derogate from the Partner's obligations under Section 14.

d. **No circumvention of Section 15.** The Country Annex supplements and does not replace the dispute-resolution, applicable-law and jurisdiction mechanism in Section 15, except to the minimal extent that mandatory law requires with respect to a specific type of claim under Section 15(e).

17. Amendments and Handling of Exceptions

a. **Writing requirement.** No amendment, modification or deviation from this Agreement is valid unless made in writing and signed by both Parties. Oral changes are void under Section 5(g).

b. **Amendments to annexes.** Amendments to Annex C or to Annex D are subject to the same writing and signature requirement, and do not require a renewed signature on this framework Agreement — provided that the amendment does not alter any provision of the provisions of the framework Agreement itself, which is not permitted. An amendment or update of the Separate Engagement Document is made directly between the Parties concerned in that engagement, outside this framework Agreement and without this requiring a renewed signature on it, and subject to the general writing requirement in sub-section (a) above and to the absolute time-boxing rule in Section 5(g).

c. **Escalation of contradictions versus the Source Protocol.** Any apparent contradiction between this Agreement and the Source Protocol (Section 1(r)) shall be escalated for the decision of the owners of the Organization / the Conglomerate CEO before any deviation is implemented; no officer below this grade is authorized to decide such a contradiction unilaterally.

d. **Cross-checking against the delegation register.** Any delegated approval authority exercised under Section 11(d) in connection with an amendment shall be reconciled against the internal delegation register before the amendment is deemed lawfully approved.

The Partner Handbook Is Incorporated Into This Agreement

A. The Partner represents and confirms having read the full "Partner Handbook — Los Gardios Group" document ("the Partner Handbook"), delivered together with this Agreement and incorporated into it as an integral part, having understood its contents, and undertakes to act in full accordance with its provisions. The Partner Handbook sets out, among other things, onboarding and training, the tier structure and organizational hierarchy, how project participation works, performance and growth rules, and how the Organization manages, uses and secures its information, systems and resources.

B. For the avoidance of doubt, the Partner Handbook is a separate document from "the Source Protocol" as defined in Section 1(r) of this Agreement. The Source Protocol continues to serve solely as the Organization's internal management framework, as described in that section; the Partner Handbook, by contrast, is expressly incorporated into this Agreement and forms an integral part of it as against the Partner. The Partner Handbook constitutes "Confidential Information" as defined in Section 1(m) of this Agreement, and is fully subject to the confidentiality obligations of Section 9.

C. The Organization may update the Partner Handbook from time to time, as needed to adapt ongoing operations, provided it gives the Partner prior written notice of any material change a reasonable time before it takes effect. No such update shall diminish the Partner's substantive rights under the body of this Agreement, nor alter the terms of consideration (Section 6), confidentiality and intellectual property (Sections 8-9), or the liquidated damages under Section 9(D) above, without the Partner's prior written consent.

D. In the event of any conflict or inconsistency between a provision of the Partner Handbook and a provision of this Agreement, this Agreement shall prevail.

18. General Provisions

a. **Entire Agreement.** This Agreement, together with its signed annexes (Annex C and Annex D, as applicable) and the Partner Handbook incorporated into it as set out in Section 17 above, constitutes the entire agreement between the Parties on the subject matter hereof, and supersedes any prior or contemporaneous understanding, discussion or agreement, written or oral, on that subject. The Separate Engagement Document, to the extent signed in relation to any specific engagement, is a document external to this Agreement as stated in Section 1(f), and is not included in the entire agreement under this sub-section and is not one of its annexes; its legal effects under this Agreement arise from the provisions of this Agreement itself, not from that document's inclusion in the entire agreement.

b. **Notices — static default address.** Any written notice required or permitted under this Agreement (including a termination notice under Section 12(b), a conflict-of-interest disclosure under Section 4(g) and a security-incident notice under Section 10(b)) shall be delivered, as a default and without the need for a separate determination, to the address and email stated on the opening page of this Agreement, by email with confirmation of receipt, courier or registered mail, unless a Party has delivered in writing to the other Party a different updated address. A notice shall be deemed delivered upon confirmation of receipt, or, by email, upon dispatch — absent a delivery-failure notice within twenty-four (24) hours.

c. **Assignment; successors.** Except for subcontracting of the actual performance of the services, regulated by its specific and exhaustive terms in Section 2(b) above, the Partner is not entitled to assign, delegate or subcontract this Agreement or any right or obligation under it without the Organization's prior written consent, which shall be given or withheld at the Organization's discretion; an assignment contrary to this section is void. The Organization is entitled to assign this Agreement, in whole or in part, to a successor entity within a merger, reorganization or sale of the bulk of the relevant activity, upon written notice to the Partner. Subject to the foregoing, this Agreement binds and benefits the authorized successors and assigns of the Parties.

d. **No waiver.** A Party's forbearance or delay in exercising a right under this Agreement is not a waiver of it, and the partial or one-time exercise of a right does not preclude any other or additional exercise of it or of another right. A waiver is valid only if made in writing and signed by the waiving Party, and a waiver in one case is not a waiver in another or future case.

e. **Counterparts; electronic signature.** This Agreement and every annex may be signed in counterparts, each of which shall be deemed an original and all of which together one document. Signatures transmitted electronically (including a scanned PDF and recognized electronic-signature platforms) are valid and binding as original ink signatures.

f. **General severance.** To the extent a provision of the provisions of this Agreement, not regulated by the specific severance mechanism in Section 9(e), is found void or unenforceable — the remaining provisions shall stand in their full force, and the void or unenforceable provision shall be corrected to the minimal extent required to render it enforceable while preserving its original purpose.

g. **Individual notes and agreements (memorandum of understanding).** Below, and only below, there shall be documented in writing and by the signature of both Parties any disclosure of an existing external project or occupation liable to place a conflict of interest between the Partner and the Organization, a precondition, a special undertaking or an additional individual agreement agreed between the Organization and the Partner specifically in connection with their engagement, and which are not expressly regulated in the body of the uniform framework Agreement or in the Separate Engagement Document — including disclosure of existing external projects and occupations of the Partner under Section 3(d), and preconditions or special undertakings agreed at the time of the engagement. Such a record does not alter, derogate from or contradict any provision of the provisions of the uniform framework Agreement, and does not constitute an annex to the annexes of the Agreement; it serves for factual documentation only of specific agreements reached with the specific Partner signing this Agreement, by the signature of an officer authorized on behalf of the Organization under Section 11(d), and in accordance with the general writing requirement in Section 17(a). The absence of any record within this sub-section attests that no additional individual agreement was agreed beyond the provisions of the uniform framework Agreement and the Separate Engagement Document, and the absence of such a record shall not derogate from the Organization's rights or the Partner's obligations under the other provisions of this Agreement.

Annex D: Financial Power of Attorney Document (Optional — to be completed only as needed)

(This annex is positioned here, in the body of this Agreement, adjacent to Section 6(h) above from which its substantive content is derived, for convenience of use; see Section 1(h). The annex is relevant and binding solely when the Partner grants a financial power of attorney as stated in that section. Absent such an arrangement — there is no need to complete this annex, and it remains without force or effect.)

Binding completion and signature sequence — fraud prevention. This annex shall be completed and signed solely according to the following sequence, which constitutes a condition of its validity: **first**, the purported attorney-in-fact shall complete its part in the annex (including the requested routing rate) and sign it. **Thereafter and only thereafter**, the annex, signed in part by

the attorney-in-fact, shall be transferred to the Partner (the grantor) itself directly, who shall complete personally and by itself — and not through the attorney-in-fact, its manager, or any other party on its behalf — its full name, its bank account details and its Global Identification Document as stated on the opening page of this Agreement, and shall sign personally. **An annex in which a manager, attorney-in-fact or any other party has signed in the name of the Partner, completed its details, or attached identification documents on its behalf — is void ab initio, is deemed a serious organizational fraud, and immediately activates the 60-second access-lockout mechanism in Section 9(d).**

Partner's name (the grantor): _____

The Partner's (the grantor's) Global Identification Document — attached as a separate encrypted annex as stated on the opening page:

☐ Attached

Name of the attorney-in-fact: _____

Status of the attorney-in-fact in the Organization:

☐

Active Partner in the Organization

☐

Not a Partner in the Organization — requires deviation approval as stated in Section 6(h)

(Approval details: _____)

ID / passport / dealer or entity number of the attorney-in-fact: _____

The attorney-in-fact's Global Identification Document — attached as a separate encrypted annex: ☐ Attached

Address and contact details of the attorney-in-fact: _____

Percentage of the profit-sharing Wallet routed to the attorney-in-fact (**up to 20% of the balance of the Partner's personal profit-sharing Wallet only, as stated in Section 6(h)** — and not 20% of the total profit pool of the engagement):

_____ %

Description of the external benefit, to the extent one exists, received from that attorney-in-fact, or a statement that the power of attorney is granted without consideration: _____

Time frame for the power of attorney, to the extent determined (or a statement that it is without a time limit): _____

Additional terms and expiry conditions, to the extent determined: _____

The single payment account for payment of the full amount (mark):

☐

Partner's account

☐

Attorney-in-fact's account

Details of the attorney-in-fact's account — to be completed **solely** if "Attorney-in-fact's account" was marked above. If "Partner's account" was marked, payment shall be effected to the bank account stated in the banking chapter of Annex C (at the end of the Agreement), and no details shall be completed here:

Account holder's name: _____

Bank name: _____

Account number / IBAN: _____

SWIFT / BIC code: _____

Dealer / entity number for the purpose of issuing an invoice: _____

Special payment terms (two separate accounts), to the extent approved: _____ (requires the signature of a senior of the Organization below)

Effective date of the power of attorney: _____

Partner's signature (the grantor): _____ Date: _____

Signature of the attorney-in-fact: _____ Date: _____

Signature of a senior of the Organization (for technical-verification approval and for approval of deviations, to the extent required):

_____ Date: _____

i. **Expense and engagement limits — per-brand/project budget and senior approval.** Any expense in connection with any brand, project or engagement shall be effected within a specific budget required and allocated to that brand, project or engagement at the commencement of its activity, and not beyond it. Any such expense requires full documentation both in the official financial document of that brand, project or engagement, and in the Neuron OS system, and also requires prior approval from a senior officer of the Organization or from an attorney-in-fact authorized by it for that purpose. No Partner, from any Discipline Group, shall bind the Organization

to an expense, supplier contracts or any other contractual or monetary obligation exceeding the allocated budget as stated, without prior and specific written approval as stated above.

j. **Costs of tools, licenses and equipment.** As a rule, the Partner bears the cost of the standard work tools and equipment suitable to its discipline. The Organization is entitled, at its sole discretion and without any obligation, to reimburse specific costs or to provide tools or systems under an organizational license.

k. **Setoff and Recoupment.** Where the Partner owes the Organization a finally determined amount — including liquidated damages under Section 9(d), an expense overrun or an unauthorized engagement under sub-section (i), or any other amount determined in a final and binding arbitral award or in a decision of a competent tribunal under Section 15, or by the Partner's written agreement — the Organization is entitled to set off and recoup this amount from any profit-sharing accrued and not yet paid to the Partner under this Agreement, including amounts as stated in Sections 12(e)–(f) and 13(b), provided that the Organization has given the Partner prior written notice of the setoff and of the supporting calculation. This sub-section qualifies, and is expressly incorporated into, the description of the Partner's entitlement upon departure in Section 12(e).

Annex C: Country Annex

(An empty framework template — to be completed and signed per-Partner, in accordance with the "Partner's Country" stated on the opening page of the Agreement. This annex supplements the framework Agreement in the matters enumerated in Section 16(b) only, and does not amend the body of the Agreement.)

Partner's name: _____

Partner's Country: _____

(This annex deals solely with the country and banking details required to effect the actual payment to the Partner. The Partner's responsibility for taxation, regulation, local labor laws and data protection laws applicable to it in its country is exclusive and applies to it by virtue of Section 14 of the Agreement, without the need for active tracking, collection or documentation by the Organization of its compliance with them; the absence of these details from this annex shall not derogate from the exclusive and full responsibility of the Partner under Section 14. The Organization and the Partner are two completely separate legal-economic actors, and the payment to the Partner is effected against an invoice, from any country whatsoever, on the basis of the banking details below only.)

Banking and Payment Mechanics (the single and exclusive place for the Partner's bank details for the purposes of this Agreement)

Name of the beneficiary on the account: _____

Beneficiary's address: _____

Currency of the receiving bank account: _____

Bank name and address: _____

IBAN / account number: _____

Account type: _____

Bank/branch number (Routing, local, to the extent relevant): _____

SWIFT / BIC code: _____

Intermediary / correspondent bank (name, address, SWIFT), to the extent relevant to a cross-border transfer: _____

Additional local payment notes (fees, settlement days, currency limits): _____

This account is the binding payment account. The full profit-sharing to the Partner shall be settled to the bank account stated in this chapter only, unless marked below and arranged otherwise in Annex D:

☐ Payment to two separate accounts under Annex D (financial power of attorney) has been approved — to the extent marked, the details of the additional account and the division between the Partner and the attorney-in-fact are detailed in the signed Annex D, and the payment shall be effected in accordance with it.

Signature for the Organization: _____ Date: _____

Partner's signature: _____ Date: _____
